

# CIRMA E-Learning Center

## Personal Protective Equipment 101 Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

### Course Description:

Hazards exist in every workplace - from sharp edges, falling objects, flying sparks, chemicals, noise to other dangerous situations. Employers are required to protect their employees from workplace hazards that can cause injury through training on how to perform their job as well as educate them on what personal protective equipment they should be wearing.

Employees who can recognize when to wear personal protection equipment (PPE) not only contribute to creating a safe and secure workplace for themselves and their co-workers, but prevent dealing with the negative effects that follow.

This one-hour course will better inform you about PPE and how wearing the proper equipment will create a safe and comfortable working environment for both yourself and your co-workers.

**Time:** One hour [Preview the Personal Protective Equipment 101 online training program here.](#)

### Learning Objectives:

At the end of training, you will have a better understanding of:

- Protecting your body
- Protecting your head
- Protecting your eyes and face

### Key Topics Include:

- Protection from workplace hazards
- Body protection
- Head protection
- Eyes & face protection
