

CIRMA E-Learning Center

Risk Management for Law Enforcement Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

There are only three things you can do with a risk: avoid it, mitigate it or finance it. Law enforcement is somewhat unique in that it is an inherently risky endeavor where some risks can't be avoided, so the best way to manage risk is to reduce the frequency and severity of losses, and to have some type of risk finance mechanism in place for those inevitable incidents that will result in some type of financial loss for the entity.

This course describes in detail how to apply the three keys to successful risk management in law enforcement - preparation, documentation and communication.

Time: Approximately 30 minutes [Preview the Risk Management for Law Enforcement online training program here.](#)

Learning Objectives:

- Identify the areas of risk impacting law enforcement.
- Understand the need for risk management planning and preparation.
- Recognize the difficulties of practicing risk management in law enforcement.
