SUBJECT: Indicators of Compromise Associated with Ryuk Ransomware – TLP: WHITE

The FBI has released the attached FLASH on information about the Ryuk ransomware. Ryuk's targets are varied and indiscriminate, but attacks focus on organizations with high annual revenues in hopes of extracting larger ransoms from the victims. While Ryuk is generally undiscerning about victims, attacks have had a disproportionate impact on logistics companies, technology companies, and small municipalities. Technical information and indicators are contained within the FLASH.
