

CIRMA E-Learning Center

Electrical and Fire Safety Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

While it's not always possible to avert disaster or avoid an electrical incident or fire, we can minimize the frequency and reduce the level of damage and loss by understanding what causes them and what to do if they occur.

This course will help employees identify the most common electrical hazards and flammables. It will also help them learn what to do in case of a fire and how to recognize and use the different types of fire extinguishers.

Time: Approximately 30 minutes [Preview the Electrical and Fire Safety online training program here.](#)

Learning Objectives:

- Identify the most common electrical hazards and flammables.
- Understand what to do in case of a fire.
- Recognize the three types of fire extinguishers and their usage.

Key Topics Include:

- Electricity Safety
- How Electricity Works
- Conductors and Non-Conductors
- Labeling and Accessibility
- Electricity and the Human Body
- The Effects of Electricity on the Human Body
- Electrocutation
- First Aid
- Using Electricity Safely
- Plugs and Extension Cords
- Fast Life Saving Switches: GFCIs
- OSHA Rules for Controlling Electricity
- Common Sense Electrical Safety procedures
- Fire Safety
- In Case of Fire
- Fire Extinguishers
