

CIRMA E-Learning Center

Fire EMS Grant Writing 101 Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

Welcome to the TurboGrants online grant writing training program. This video-based grant writing course is designed to teach both novice and experienced grant writers how to write a winning grant proposal. Specific to Fire and EMS agencies, participants will learn firsthand about grant writing from the experienced grant team at FireGrantsHelp & EMSGrantsHelp. The course's nine modules take each participant step-by-step through the grant process including pre-planning, grant research, developing a problem statement, financial needs and budget development. It also includes specific modules dedicated to some of the larger Fire and EMS annual grant opportunities. At the end of each module is a short quiz section, which will test your comprehension of the training materials. After passing all of the quiz sections, you will be awarded a certificate of completion. While the course takes about an hour total to complete, we recommend taking it in sections rather than all at once — your place in the course will always be saved so you can return to it at any time even after logging out. When you return to the course, you will automatically be brought back to the page you were last using. This course is brought to you by FireRescue1.com. For additional information on FireGrantsHelp, please visit us online at www.FireGrantsHelp.com or www.FireRescue1.com.
