

CIRMA E-Learning Center

Effective Communication Techniques for Teachers 102 Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

As a teacher, you face almost continual talk at school each day. Often the talk involves many people at once, or even an entire class. And, individuals have to take turns speaking while also listening to others, or sometimes ignoring the others if a conversation does not concern them. You find yourself playing an assortment of roles when communicating and trying to engage students in the material. You play Master of Ceremonies, referee - and of course a source of new knowledge. Your challenge is to sort through the many roles so that you are playing in the right combinations at the right times. This one-hour course will continue the discussion of how teachers can implement certain strategies that will improve classroom communication flow.

Time: One hour [Preview the Effective Communication Techniques for Teachers 102 online training program here.](#)

Learning Objectives:

At the end of training, you will have a better understanding of:

- The different participation structures.
- How to use classroom talk to stimulate students' thinking.
- How to promote academic risk-taking and problem-solving.
- How to promote a caring community.

Key Topics Include:

- Structures of Participation
- Kelvin Seifer Case Study
- Using Classroom Talk to Stimulate Students' Thinking
- Promoting Academic Risk-Taking and Problem-Solving
- Promoting a Caring Community
