

CIRMA E-Learning Center

Documenting Student Behavior Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

With the advent of No Child Left Behind and other scholastic legislation, gathering data to justify decisions and show progress is more important than ever. Good data collection can improve classroom behavior and learning and provide evidence for an intervention.

This course will cover the methods for gathering data, key terms and variables and tracking growth and change. Additionally, you will learn how to gather data in teams, graph your results and walk through two case studies.

Time: Approximately 30 minutes [Preview the Documenting Student Behavior online training program here.](#)

Learning Objectives:

- Recognize different methods of reporting and gathering data.
- Identify the ways in which data gathering can help improve or reinforce student behaviors.
- Define the key terms related to data gathering.

Key Topics Include:

- Benefits of data collection
- Types of data collection
- Gathering data over time
- Case study: Beginning assignments
- Case study: Noncompliant, disruptive and aggressive behavior
- Collecting data for positive behaviors
- Tracking self-help skills
