

CIRMA E-Learning Center

Providing and Protecting Potable Water Sources Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

No water means no life. It is one of the most important substances on Earth and has recently become a hot topic in the United States due to conversation about global warming. This one hour course will discuss the importance of conserving not only the supply of water but potable water in particular. In this course, the learner will navigate the world of water conservation and preservation through an individual and regulatory lens.

Time: One hour [Preview the Providing and Protecting Potable Water Sources online training program here.](#)

Learning Objectives:

At the end of this course, the learner will be able to:

- Differentiate between water sources as they relate to drinkability.
- Explain where potable water originates.
- List ways to conserve the supply of potable water.
