

# CIRMA E-Learning Center

## Chainsaw Safety Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

### Course Description

Like all power tools, a chainsaw can save both time and labor if used properly. But, it can be quite dangerous in the hands of an inexperienced operator. Operators who take precautions when using a chainsaw help create a safe and secure environment for themselves and their co-workers. Taking these precautions can prevent the long-term negative effects that can result from accidents.

**Time:** One hour [Preview the Chainsaw Safety online training program here.](#)

### Learning Objectives:

At the end of training, you will understand the importance of:

- Choosing the right size chainsaw
- Wearing the appropriate personal protective equipment (PPE)
- Operating the chainsaw properly
- Providing regular maintenance.

### Key Topics Include:

- Selection
- Safety Equipment
- Proper Use
- Maintenance
