

# CIRMA E-Learning Center

## Fire Behavior - Types of Fires Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

### Course Description

If you can recognize the type of fire you are dealing with, you will be better able to choose an effective technique for extinguishing it. Moreover, because different fire types and fuel sources pose different risks to firefighters, you must be able to accurately determine the safest method for combating any given fire.

The information you have learned in this course should help you to stay safe while protecting the lives and property of the communities and organizations you serve.

**Time:** Approximately 30 minutes [Preview the Fire Behavior - Types of Fires online training program here.](#)

### Learning Objectives:

- Understand the processes that drive fire growth and expansion
- Identify the different patterns characterizing a fire from ignition to decay
- Recognize the ways that heat can transfer from one fuel to another to sustain a fire

### Key Topics Include:

- Selection
- Safety Equipment
- Proper Use
- Maintenance
