

Diabetic Emergencies Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

Diabetes is a growing health concern. Many people are at serious risk and unaware that they are even diabetic. Others may be managing their diabetes, but they may have forgotten to take their insulin, or they forgot to eat and are now having a crisis. You may very well be working with someone who is diabetic and not even know it. If a co-worker were to suffer a diabetic emergency, would you know how to help them? Understanding the signs and symptoms of diabetic emergencies will help you to respond confidently and effectively to help a person experiencing a diabetic emergency.

Time: 1 hour [Preview the Diabetic Emergencies online training program here.](#)

Learning Objectives:

At the end of this course, the learner will be able to:
