

CIRMA E-Learning Center

Traffic Incident Management Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description

Road congestion is defined as one of the single largest threats to the nation's economic prosperity and way of life. In 2006, the U.S. Department of Transportation announced the national strategy to reduce congestion on America's transportation network which is now implemented. This Traffic Incident Management one-hour course will discuss how to manage traffic incidents in ways that comply with federal regulations.

Time: One hour [Preview the Traffic Incident Management online training program here.](#)

Learning Objectives:

At the end of training, you will have a better understanding of:

- The roles and responsibilities of each worker
- Proper systematic responses
- Safe, Quick Clearance laws
- Effectively managing traffic incidents from start to finish

Key Topics Include:

- Traffic Incident Management Partners
- Incident Command System
- Fatalities
- Safe, Quick Clearance
- Responder and Motorist Safety
