The Excellence in Risk Management Award honors the achievements of those CIRMA members who generate significant impact through their risk management programs and initiatives.

This award program seeks out the best of these programs to honor. Their innovative problem-solving, excellence in management, and success in changing behavior deserve the highest recognition.

It is through the recognition of these award recipients that we can learn from their experiences and build on their success.

CIRMA encourages its members to apply. For more information and to download an Award Application, please visit www.CIRMA.org.

“Honoring leadership in risk management”
