

CIRMA E-Learning Center

Advanced Defensive Driving Techniques Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

Defined simply, defensive driving is driving proactively to ensure the safety of yourself and others. The basic elements of defensive driving require that you make good decisions. However, some circumstances require drivers to have additional knowledge and training to inform their decisions. Advanced defensive driving means being prepared to drive safely in unexpected circumstances and challenging environments. Advanced defensive driving requires being fully informed about potential hazards and knowing the proper techniques for handling them.

This course will cover the techniques for safely driving in severe weather as well as how to share the road with pedestrians and various vehicle types. Additionally, you will learn how to adjust your driving style to account for different road conditions.

Time: Approximately 30 minutes [Preview the Advanced Defensive Driving Techniques online training program here.](#)

Learning Objectives:

- Identify the hazards associated with severe weather driving and know how to respond to them
- Recognize your responsibilities when sharing the road with other motorists, cyclists, and pedestrians
