

# CIRMA E-Learning Center

## Wastewater Utility Operation & Maintenance Online Training

Our E-Learning Programs are **FREE** to all CIRMA members.

### Course Description

Water is essential for everyday life - from drinking water to using it for systems to operate. In order for water to be safe for consumers to use, it goes through a variety of systems. Sometimes the systems have their problems both from 'wear and tear' or even human error. This one-hour course will help operators as well as managers of utility services learn about the maintenance and management of water and wastewater utilities.

**Time:** One hour [Preview the Wastewater Utility Operation & Maintenance online training program here.](#)

### Learning Objectives:

At the end of training, you will have a better understanding of:

- Pesticide Contamination
- Incidents within Water Treatment Plants
- Sewage Collection Systems
- Alternative Septic System Operation
