

CIRMA E-Learning Center

Lawn Care Equipment Safety Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

Lawn mowers are an important component in the ongoing efforts to keep our community looking its best. To many people, the sound of lawn mowers running and the smell of fresh-mowed grass are welcome signs of spring and summer's return. One should always keep in mind, though, that there are risk factors involved in operating this powerful equipment.

This course will help employees recognize the risks involved in using lawn care equipment, identify the 4 most common types of lawn mower accidents and ways to avoid them and finally, provide tips for the safe operation of different types of lawn care equipment.

Time: Approximately 30 minutes [Preview the Lawn Care Equipment Safety online training program here.](#)

Learning Objectives:

- Recognize the risks involved in using lawn mowing equipment.
- Identify the 4 most common types of lawn mower accidents and ways to avoid them.
