

CIRMA E-Learning Center

Fall Protection Online Training Program

Our E-Learning Programs are **FREE** to all CIRMA members.

Course Description:

In construction, more deaths are caused by falls than any other hazard. Falls account for over a third of the 700 plus construction deaths that occur each year. Workers performing tasks six feet or more above ground level are at risk of fatal falls or serious injuries. This one-hour course will cover how to prevent falls when working from a tall height.

Time: One hour [Preview Fall Protection online training program here.](#)

Learning Objectives:

At the end of training, you will understand how to prevent falls from:

- Ladders
- Scaffolds
- Roofs

Key Topics Include:

- ABC's of Falling
- Ladder Safety
- Scaffolding Safety
- Roofing Safety
