

A close-up photograph of a person's foot wearing a black flip-flop, stepping on a pile of snow. The snow is bright white and fluffy, contrasting with the dark shoe. The person's leg is visible, and another foot in a similar shoe is partially visible in the background.

CIRMA

Warm toes aren't the only reason to wear proper footwear in winter!

- You can lower your risk of a slip and fall injury by **25%** by **wearing boots and shoes with treads.**

Slip and fall accidents are the leading cause of workplace injury to CIRMA member employees. For more information on preventing slips & fall accidents and developing a Slip & Fall Prevention Program in your organization, please visit our Slip & Fall prevention page at www.CIRMA.org.
