

Kimberlly Salinas, ARM
Risk Management Analyst
Connecticut Interlocal Risk Management Agency (CIRMA)

Kimberlly Salinas has been the Risk Management Analyst for nearly two years. Kimberlly is an alumna of Eastern Connecticut State University, where she graduated in 2022 with a degree in Criminology and Sociology with a Minor in Computer Science. Kim has successfully integrated her academic knowledge into her professional role at CIRMA, specializing in crafting online content tailored for CIRMA's members.

Her insights and analytical skills contribute to developing effective risk management strategies and creating engaging and informative online content that resonates with CIRMA's diverse membership.

Her commitment to excellence in risk management is evident in her recent achievement of the Associate in Risk Management (ARM) designation.
